SKILLS SHEET #5

SKILL DEFINITION: GEOMETRY AND INTRO TO USING DRAFTING TOOLS, DEVELOPING PENCIL USE.

On a 8 1/2X11 sheet, draw a box as indicated. (box is 2"high X6" wide)

Create the box by bisecting the 90 degree angle and transferring measurements around (less measuring!).

Draw lines carefully, making sure not to rock your hand.
Create guidelines using an Ames lettering guide.
Letter in the information as indicated

You've just made a title block - Also a tool that you can use on all your draftings from now on. You can slide it in under your drafting sheet and trace it from now on.
